SKILLS

- **Languages and Programming:** Java, C++, JavaScript, Python, MySQL
- **Technologies and Tools:** Node.js, Express.js, React.js, MongoDB, PostgreSQL, Redis, JWT, Git/GitHub, REST APIs, Postman
- **Systems and Concepts:** Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database Management Systems

EDUCATION

- **Chitkara University (CGPA: 9.52)** Rajpura, Punjab, India
Bachelor of Engineering (Computer Science) August 2023 – August 2027
- **Scholars Public School** Rajpura, Punjab, India
Class 10: 93.4% CBSE
- **GSSS NTC Rajpura** Rajpura, Punjab, India
Class 12: 95% PSEB

PROJECTS

- **GreenLeaf Nursery** October 2025 – December 2025
Tools: Node.js, Express.js, EJS, PostgreSQL (Neon), MongoDB Atlas, Redis Cloud, JWT, Socket.io
 - Built a full-stack plant e-commerce platform with real-time inventory sync, product filtering, and dynamic browsing.
 - Implemented secure authentication using JWT, bcrypt, and MongoDB-backed sessions for persistent user logins.
 - Integrated Redis caching and optimized queries to accelerate product loading and reduce database load.
 - Designed a responsive EJS-based UI with complete shopping flow (cart, checkout, orders, and basic admin utilities).
- **There For You** February 2025 – March 2025
Tools: Node.js, Express.js, EJS, MongoDB, HTML, CSS, JavaScript, Bootstrap
 - Developed a full-stack mental health platform offering audio, reading, and laughter-based therapies.
 - Implemented doctor appointment booking and simple consultation management for users.
 - Built a personalized user dashboard to track daily progress and therapy engagement.
 - Used MongoDB, EJS, Bootstrap, and responsive design for secure data storage and an accessible multi-device experience.
- **UpLift** November 2024 – December 2024
Tools: React.js, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose, JWT
 - Developed a full-stack platform to manage faculty achievements with dynamic forms and role-based access.
 - Enabled faculty to submit appraisal applications based on their latest achievements with real-time updates.
 - Implemented secure JWT-based authentication and profile management to protect sensitive user data.
 - Utilized MongoDB and Mongoose with centralized admin tools for achievement review and automated rating calculations.

CERTIFICATIONS AND ACHIEVEMENTS

- **Problem Solving:** Solved 300+ Data Structures and Algorithms problems on LeetCode using Java.
- **Competitive Programming:** Achieved a LeetCode contest rating of 1631.
- **Certification:** Meta Frontend Developer — Coursera.
